Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning. Skilled in Python, C, and JavaScript with hands-on experience in computer vision, NLP, and decentralized applications. Proven ability to design and implement AI-driven solutions, with internship experience in speech-to-text, text summarization, and neural style transfer. Seeking entry-level opportunities to apply expertise to impactful real-world projects.

Education

Bachelor of Technology in Computer Science

Nov 2022 – May 2026

Raghu Engineering College, Visakhapatnam, Andhra Pradesh

GPA: 7.49 / 10.0

Internship

Artificial Intelligence – Codetech IT Solutions

Feb 2025 – Apr 2025

- Implemented a **speech-to-text system** using Python libraries to convert audio input into accurate text.
- Built an **NLP-based text summarizer** to condense long documents into concise summaries.
- Experimented with **neural style transfer** techniques for creative text and image transformations.
- Developed a **paragraph generator** leveraging language models to produce coherent and context-aware text.

Skilldzire Technologies

May 2025 – June 2025

- Applied programming concepts to real-world tasks using structured and modular code.
- Strengthened fundamentals in **problem analysis, solution design, and software development**.
- Collaborated with team members to complete assigned tasks within project timelines.

Projects

AI-Based Face Attendance Detection System

Python, OpenCV, Machine Learning

- Built an AI-powered facial recognition system to automate attendance management.
- Implemented **image preprocessing, feature extraction, and recognition algorithms** to improve accuracy.
- Designed programmatic storage of attendance records, reducing manual errors.

Web3 Vault – Decentralized File & Password Manager

IPFS, Lighthouse API

- Developed a secure, decentralized vault for file and password storage.
- Integrated **IPFS and Lighthouse API** to handle simultaneous file uploads with 99.9% uptime.
- Designed **user-controlled access logic** for enhanced security.

Skills

Programming Languages Python, JavaScript, C

Web Technologies: HTML, CSS

AI / ML: Machine Learning, Computer Vision

Data / Automation: SQL, n8n

Core Competencies: Problem Solving, Communication, Team Collaboration

Certifications

- Machine Learning – NPTEL
- C Programming – NPTEL
- MATLAB Certification – MathWorks (Data Visualization)
- Introduction to Machine Learning and AI – Raspberry Pi Foundation (edX), 2024

Languages

English, Hindi, Telugu
